## **Notice of Privacy Practices**

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

### **Understanding your Health Information**

Each time you visit your healthcare provider, a record of your visit is made. Typically, this record contains your symptoms, examination, diagnosis, treatment, and a plan for future care of treatment. This information, often referred to as your health or medical record, serves as a:

- Basis for planning your care and treatment
- Means of communication among the many health or medical professionals who contribute to your care
- Legal document describing the care you received
- Means by which you or a third-party payer can verify that services billed were actually provided
- Understanding of what is in your record and how your health information is used to help you to: ensure it's accuracy; better understand who, what, when, where, and why others may access your health information; and make more informed decisions when authorizing disclosure to others

### **Your Health Information Rights**

Although your health information is the physical property of your healthcare provider, the information belongs to you. You have the right to:

- Request a restriction on certain uses and disclosures of your information
- Obtain a paper copy of the "Notice of Privacy Practices" upon request
- Inspect and copy your health records
- Request an amendment of your health record
- Obtain an accounting of disclosures of your health information
- Request communications of your health information by alternative means or at alternative locations
- Revoke your authorization to use or disclose health information except to the extent that action has already been taken

### **Our Responsibilities**

The physicians and staff at Dr. Robin Russell's Office are required to:

- Notify you if we are unable to agree to a request restriction
- Accommodate reasonable requests you may have to communicate health information by alternative locations

### **How We Use your Health Information**

- We will use your health information for TREATMENT

Example: Information obtained by a nurse, physician, or other member of your healthcare team will be recorded in your record and used to determine the course of treatment that should work best for you. Your physician will document in your record his or her expectations of the members of your health care team. Members of your health care team will then record the actions they took and their observations. In that way, the physician will know how you are responding

- We will use your health information for PAYMENT

Example: A bill may be sent to you or a third-party payer. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures, and supplies used.

- We will use your health information for HEALTH CARE OPERATIONS

Example: Members of the medical staff may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the health care and services we provide.
